Virtual Classroom

Spread of CoVid-19 & Education Environment

Your Digital Innovation Partner

The GCC is a regional hub for finance, events, trade, and tourism, which makes it a dynamic area for global interactions.
That also makes it a high risk of contamination.

Drastic measures taken to reduce risk of Covid-19 spreading:

- Schools and Universities closed
- Education will continue remotely

Distance Education is a primary solution to limit the virus's related impacts on education continuity.

All schools & universities in the UAE will be closed till Further notice

Your Digital Innovation Partner

Why Distance Learning can be Effective

Seamless return to normal activities

Minimize curriculum impact – continuity

Goodwill - ensure safety of Students & Teachers

Limit negative information with effective internal communication

Distance Learning Basic tools?

Video Call: For an enhanced experience, video replicates face-to-face communication, which improves the effectiveness of conversations. Reduce travel time, optimize attendance, and increase productivity.

Web Conferencing: Hold live lessons, conferences, training, presentations, and lectures in real-time.

Content Sharing: Use it to share contents and fulfill information needs, provide instant recommendations, promote your Education materials.

Secure Connectivity: Make sure your connection is secure to protect the security of your vital data. Don't let sensitive information fall at the wrong hands.

Distance Learning Offering

Your Digital Innovation Partner

CNS is the foremost provider of digital working solutions that allow employees of our clients in every major industry to work unimpeded from home.

We're also the leading integrator of remote learning solutions in the region, with multiple applications that our clients already trust to ensure the smooth flow of information from their educators to their students.

eLearning Solution - LearnCube

Your Digital Innovation Partner

A virtual classroom gives students access to quality teachers anywhere on the planet with a reliable internet connection. This facility also breaks down common barriers to synchronous learning: cost, distance & timing.

1. **Video conferencing ability** - teachers and students can see each other
2. **Audio conferencing** - participants can hear each other
3. **Real-time text chat** – short messaging less involved queries
4. **Interactive online whiteboard** - online users interact on the same page
5. **Library of learning materials** - allowing more structured lessons
6. **Teacher tools and controls** - just like in a physical classroom

How different is a virtual classroom to a web-conference?

The two key features that transform the teaching and learning experience are:

1. Interactive online whiteboard
2. Library of learning materials

Virtual Class Room - LearnCube

Your Digital Innovation Partner

Interactive online whiteboard, reliable audio & video, and white-label with your business branding all form part of our exceptional higher (distance) learning tools at your disposal.

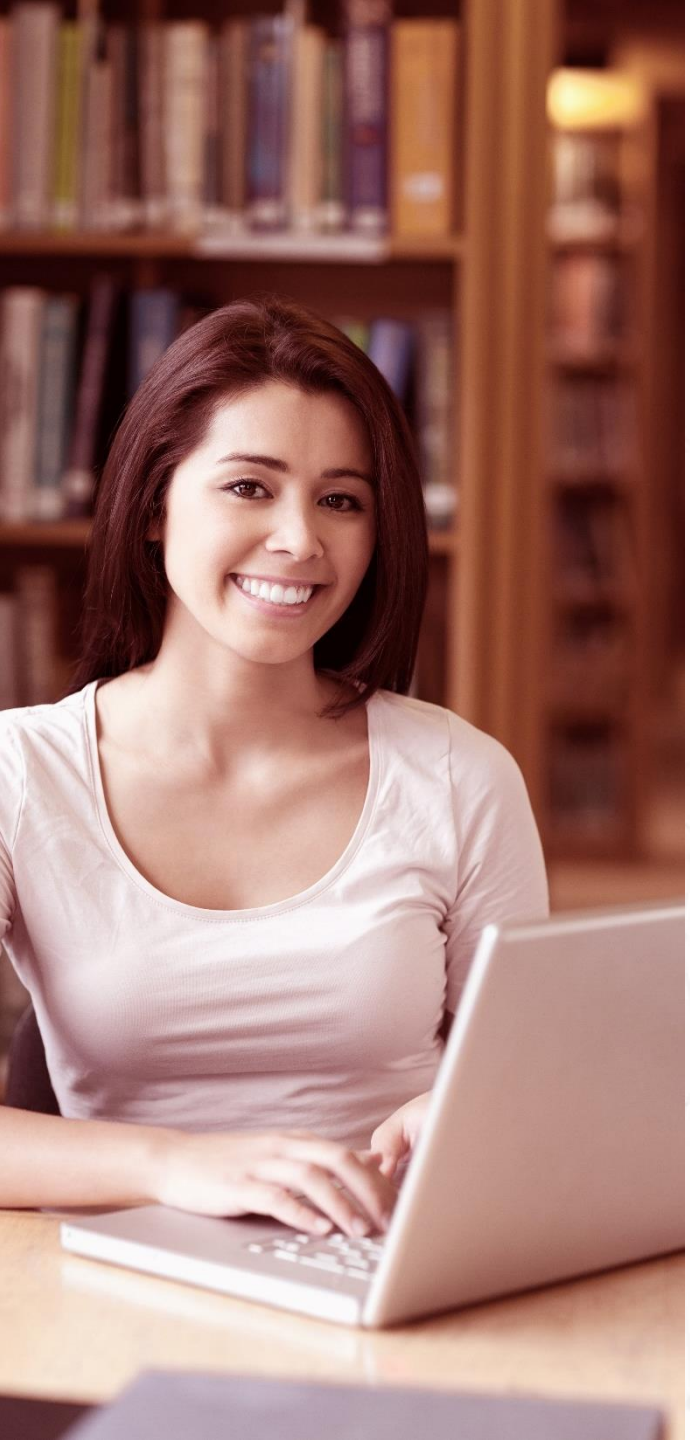
- It will show **upcoming events or deadlines**
- The Chatbot can show a **users' history** and **Completed Courses**
- **Personalized FAQ's**
- **Live chat** as a partner to review past lessons



PROTECT YOUR ONLINE EXAM

Your Digital Innovation Partner

Remote proctoring backed by A.I. utilizes a variety of technologies to verify and monitor the testing process with different levels of sophistication.

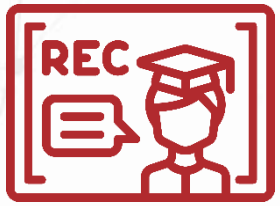
The basic level of proctoring, a fully automated service, uses an AI-driven platform with multi-factor identity verification, end-to-end video recording, and automated flagging of questionable testing behavior.

Advanced services use a multi-layered approach to proctoring in which live, human proctors are augmented by AI to flag and intervene when suspicious activity is detected.

Your Digital Innovation Partner

PROTECT YOUR ONLINE EXAM

CNS solutions will help you detect and prevent cheating, authenticate identities, and protect your exam content.



RECORD+

A fully-automated identity verification and session recording solution for low-stakes assessments that don't require active session intervention.

REVIEW+

A great tool for lower-to mid-stakes assessments combining a live environment scan with AI behavior-monitoring and professional proctor review.

LIVE+

The most secure option for any online (high-stakes) exam. Maintain integrity & credibility with active intervention to stop suspicious behavior.
